LARGE ESTATE

Of Mrs. Anna M. Zweigart Goes To Her Four Children—Will Filled For Probate.

The last will and testament of the late Mrs. Anna M. Zweigart admitted to probate Monday, leaves all of her estate to her four children.

The deceased requested that her two sons and daughters qualify as executors without bond; that no inventory and appraisement be required and that no statement of settlement be made, as her children were capable of making an equitable division among themselves.

The household goods, plate, books, etc., were bequeathed to the two daughters, the real estate, etc., to be equally divided between her four children.

No estimate or appraisement of her estate has been made, but it is said to amount to over \$50,000 in value.

Although the total production of farm crops was approximately 12 per cent. smaller last year than in 1912, the average level of prices was higher. The total value of all crops in 1913 is put at \$4,940,301,000, a gain of \$182,958,000 over the previous year. But despite a record year of crop value—although the record of production has fallen—and the fact that the number of farms has increased 11 per cent. since 1910, until there are now estimated to be 6,600,000 farms in the country, the Department of Agriculture in a discussion of the subject made public, does not take the view that a lower cost of living will follow as a consequence.

The new tariff duties on woolens went into effect on January 1, on which date there were \$5,500,000 worth stored in bonded warehouses in New York. On January 2, 7,568 packages, valued at about \$2,000,000 were taken out of bond, and \$727,000 was collected in duties. Under the old tariff these goods were dutiable anywhere from 10 cents a pound to a compound rate of 50 cents per pound plus 60 cents ad valorem. The new rates run from 8 to 50 per cent. ad valorem. It is stated that the woolen fabrics so far released are of the lighter weights, and that the larger part of the heavy-weight goods will probably not be withdrawn until later in the year.

SOME CATHOLIC OPINIONS

ON WOMAN SUFFRAGE.

Cardinal Moran of Australia, in his official organ, the Catholic Press, of Sydney, says: "What does voting mean to a woman? Does she sacrifice any dignity by going to the poll? The woman who votes only avails herself of a rightful privilege that democracy has gained for her. No longer a mere household chattel, she is recognized as man's fellow worker and helpmate, and credited with public spirit and intelligence. As a mother, she has a special interest in the legislation of her country, for upon it depends the welfare of her children. She knows what is good for them just as much as the father, and the unselfishness of maternity should make her interest even keener. She should deem it one of the grandest privileges of her sex that she can now help to choose the men who will make the laws under which her children must live, and exert her purer influence upon the political atmosphere of her time. How can she sacrifice any dignity by putting on her bonnet and walking down to the polling booth? Women think nothing of transacting ordinary commercial business, of working alongside men, of playing their part in the practical business of life. They do not mind going to the box office of a theater to purchase tickets for the play. There is very little difference between doing that and putting their vote in a ballot box. The men about the booths show them courtesy, the officials are anxious to make things easy for them, and the whole business of voting does not occupy more than 5 minutes. The woman who thinks she is making herself unwomanly by voting is a silly creature.

I hope that women will consent to vote for public officers. For the life of me I never could see that Blanche of Castile, or Matilda of Canossa, or Victoria Guelf were less exemplary as women for their being all their lives mixed in politics; and I think that a great onward step in the progress of mankind will be made when every adult person shall take an active part in the government of our country—Rev. Edward McSweeney, Mt. St. Mary's, Maryland.

There is also the question of woman suffrage. The experiment will be made, whatever our theories and prejudices may be. Women are the most religious, the most moral, and the most sober portion of the American people, and it is not easy to understand why their influence in public life is dreaded.—Bishop John Lancaster Spalding.

Opinions of other noted Catholic clergymen will be given later.

A paragrapher has suggested that if this radium agitation does not end, the name of the State will have to be changed to Coloradium.—The Engineering and Mining Journal.

A BANKRUPT "MODEL STATE."

At an address at Marion last week, President Thompson, of the Ohio State University, emphasized the menace of spending without the means of paying, and in this connection he mentioned the fact that Wisconsin, the State of boasted modern "progressive" reforms, is bankrupt.

NEWS STRANGER THAN FICTION.

Suppose advertising of all kinds the world over were wiped out for a month—utterly obliterated. Yes, it would ruin business. But it would do more—it would make this old world positively stupid.

Why? Because advertising is news, and we must keep pace with the news or grow stale.

Newspaper advertising—the best on earth—is displayed news, paid for with a purpose.

The latest news in newspaper is advertising, a special sale of furs, a big reduction in suits, a saving in groceries, furniture at annual sale prices, or five bars of soap for the price of three—all this latest news is as important to every housewife and the husband who pays the bill as the last word of the newest municipal or society scandal.

Advertising is positively and absolutely news.

Successful advertisers make their ads. as newsy as possible. Read the ads. in this paper as news. Keep up with them and you will know the merchants who really want your trade.—Ashland Independent.

FOOLISH PHILOSOPHY.

The trouble with good resolutions is that they never come with a guarantee.

Some people get religion with the idea that they need no other fire escape.

The people who are employed in the marriage license bureau say their work is a labor of love.

By their deeds ye shall know them. You can always size a man up by the things he doesn't do.

The difference between the clothing of men and women is that men's clothes are made to put on, women's to show off.

A girl of 16 never sees a play without noting a striking resemblance between herself and the heroine.

Scientists claim that love is due to a microbe. Some of us are willing to go even farther, and say it's a bug.

Heated discussions don't always make warm friends.

Fear will sometimes cause a woman to change color almost as readily as a little rouge.

Love laughs at locksmiths, and when poverty comes in at the door he also laughs at glaziers.

PARAGRAPHS OF WIT.

"A tall, gaunt young man entered the office of the Globe museum and family theater and asked for the manager.

"What can I do for you?" inquired a pudgy man in a checked suit.

"I want an engagement as a freak in the curio hall."

"Who are you—"

"I am Enoch, the egg king."

"What is your specialty?"

"I eat three dozen hen eggs, two dozen duck eggs and one dozen goose eggs at a single sitting."

"I suppose you know our policy?"

"What is that?"

"We give four shows every day."

"And you think you can do it?"

"I know I can."

"On Saturdays we often give as many as six shows."

"All right."

"And in some holidays we give a performance every hour."

The young man hesitated.

"In that case," he finally said, "I must have one thing understood before I sign a contract."

"What's that?" asked the manager.

"No matter how rushing business is at the museum," the egg king replied, "you gotta gimme time enough to eat my regular meals at the hotel."—Lippincott's.

SMOKE STACK BLOWN DOWN.

The large smoke stack at the Ripley shoe factory was blown down Monday morning about 9 o'clock. This necessitated the closing down of the plant and will cause an enforced lay off of a week or more.—Ripley Bee.

BIG TOBACCO CROP IN 1914.

From all parts of the State come reports that the farmers are preparing for a bumper tobacco crop. The mild weather that has prevailed for the greater part of this winter has enabled them to go ahead with their preparations for plant beds and if the beds do not encounter disaster in the Spring there will be such an abundance of plants as never was known before. Last Spring the heavy rains destroyed many plants and the memory of that fact will induce many farmers to be more careful in the preparation and location of their beds. As a rule fair prices for the weed have been realized in Kentucky for last year's crop and this is always an incentive to the growers to produce bigger—if not better—crops. The chances are that the year 1914 will witness the breaking of the tobacco production record in Kentucky.—State Journal.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Collector Ben Marshall "Good Democrat" Calls for Resignations of Republican Store-keepers.

The following is a copy of a circular letter which Collector Ben Marshall is sending out to Republicans who are in the revenue service in this the Seventh District:

Sir:—Having requested of the Commission of Internal Revenue the revocation of a sufficient number of Commissions of storekeeper-gaugers in this the Seventh District to bring the roster within fifteen per cent. surplus as prescribed by law I am authorized by him to select from the roster the names of those I wish revoked. After having made your selection of the persons to be dropped it is but an act of justice to the persons thus selected to give them an opportunity to tender their resignation rather than to be removed from the roster.

Henceforth you are given the opportunity to tender your resignation the same to be effective March 1st, 1914.

Yours very truly,
BEN MARSHALL, Collector.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that the late Mrs. Lydia E. Pinkham's Vegetable Compound has been able to cure in all its stages, and that Catarrh. Hall's Catarrh Cure is the only medicine known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure takes internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars to any case that it fails to cure. Send for list of testimonials.

You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

You can't make a mistake in taking

GARDUI The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

WHAT IS VINOL?

About Which We Hear So Much?—Our Druggist Tells You.

After twenty years of study two eminent French chemists discovered a method by which the alkaloids or medicinal curative elements of the cod's liver could be separated from the useless oil or grease. The oil which has no medicinal value is thrown away, but the healing, curative properties are blended with tonic iron and a mild medicinal wine which makes Vinol, thus combining in one medicine the two most world famed tonics.

Vinol is not a secret medicine as its ingredients are printed on every bottle, and in all cases where the healing, curative influence of cod liver oil, or the blood building, strengthening influence of tonic iron is needed, Vinol gives immediate benefit, for it is easily assimilated and acceptable to the weakest stomach.

For all run-down, weakened conditions, and to cure chronic coughs, colds and bronchial troubles, Vinol is unequalled. We will return your money if it fails. J. C. Peor, Druggist, Maysville. P. S. For pimples and blotches try our Saxo Salve. We guarantee it.

If Appropriation Bill Is Passed By Both Houses of Congress.

Washington.—A rivers and harbors bill, carrying the grand total of \$44,000,000 in appropriations, has been tentatively adopted by the committee for presentation to the house.

In this bill the Ohio River is treated better than ever before, the appropriation being \$5,350,900. An additional \$8,887,000 is certain to be authorized in the sundry civil appropriation bill for continuing existing projects on the Ohio, making the total appropriations this year \$9,237,900.

OPPOSES INCREASE

Post-office Committee Said To Favor 2-Cent Postage For Magazines.

Washington.—The proposal to increase the postal rates on second-class mail—printed matter—from 1 cent to 2 cents a pound was opposed before the House Post-Office Committee by Cyrus E. Curtis, president of the Curtis Publishing Company.

Sentiment in the committee was plainly in favor of the increase in the rate on magazines, and it is probable that a bill to provide for the increase without affecting the newspaper rate, will soon be reported to the house.

Mr. Curtis was questioned at length as to the postal expenditures and the advertising income of the two magazines published by his company. He said that both publications paid about \$600,000 a year for postage, which would be doubled if the rate was increased.

Retired Georgia Planter's Advice to Kidney Sufferers

Regarding the wonderful curative merits of your Swamp-Root, I cannot say too much. After suffering severely for three years or more with severe pains caused by weak kidneys, I was finally induced to try Swamp-Root through a testimonial I read in one of the newspapers. I was in such a condition that I was obliged to arise from my bed six or eight times every night. I purchased a fifty-cent bottle and before it was used I felt so much relief that I purchased a one-dollar bottle and by the time this was taken the old pains had left my back and I could sleep the whole night through. I am a retired planter, 70 years of age, and owing to Dr. Kilmer's Swamp-Root, I am in the best of health and feel like a boy. I am always glad to recommend Swamp-Root to those who are in need of it.

Sincerely yours,
C. E. USSERY,
Bowersville, Ga.

Personally appeared before me, this 8th of September, 1909, C. E. USSERY, who subscribed the above statement and made oath that the same is true in substance and in fact.

ONE OF THE HAPPENINGS.

Robert G. Ingersoll was one day calling upon Henry Ward Beecher in his study when he was particularly impressed by a peculiarly elaborate globe, which showed on its surface by raised figures, the constellations of the stars. Ingersoll turned the globe around, examining it with the greatest admiration.

"That is fine," said Ingersoll, "just what I want for my study. Who made it, Mr. Beecher?"

"What, the globe?" asked Mr. Beecher.

"Yes," said Ingersoll.

"But nobody made the globe, you see Ingersoll—it just happened."

Life at a German University

Beer Drinking By the Students—One Man Drank 12 Litres While the Clock Struck the Hour of Noon! The Kneipe!

By Dr. A. N. Ellis.

I only wish that I could draw a true and life-like picture of the way they do things at the great Colleges in the German Fatherland. An American can scarcely realize the reckless ways of the students until he has among them. Many of them seem to do nothing else but "drive dull care away." They have a society at Heidelberg known as the Kneipe. Just what the word means I do not know. After I had attended the Kneipe just once I did not know anything myself for about a week. To belong to the Kneipe is as bad as being a Schreiner and that you know is pretty bad. To be the Captain of the Kneipe is to occupy a mighty high place in the College World and one worth striving after—almost akin to leading the forlorn hope in the day of battle. He must be able to drink more beer than any other man in the crowd—that is not a single sitting. Keep that in mind and don't forget it.

big room around which are gathered 40 or 50 students. In front of each is a big glass of beer, a box of tobacco, a box of matches and a long pipe. At a given signal the fun begins and everybody begins to load up and fire up. The room is full of waiters bringing the needful from the bar. At last no one is in a hurry—they have all come to stay and don't intend to go home till morning, till daylight doth appear. Every man keeps his own account by having aside a match everytime he downs a glass of the aqueous extract of malt. Generally it is not long before there is a lot of talking and singing—in very many different languages—jingling of glasses, while great clouds of tobacco smoke hover over the heads of the boys and shut off the views of different forms of student life hanging all around on the walls.

As hour after hour slips away, the fun waxes fast and furious and the beer mugs are emptied one after another and

one begins to wonder why somebody does not burst wide open and run all away into nothing! It is the biggest show on earth and beats old John Robinson all to pieces. It is almost beyond belief how much some men can hold. I was told about one particular student who drank 64 glasses. I do not know whether that was true or not. I never think of those times and that crowd but that I become mixed up and unreliable. Generally in three or four hours almost everybody is dead gone under the table with perhaps the exception of some half dozen gifted orators and singers standing straight up on the table talking at once about the folly of getting drunk so early in the evening.

There was one student at that University who made a bet that he could drink 12 litres of beer while the town clock was striking 12. Now a litre is measure holding half-way between a pint and a quart. Don't forget this as you go along. A big crowd was on hand to see the show and the performance calling for so much genuine courage and self-denial! A dozen students stood near at hand each holding a full measure of the foaming nectar—this to prevent a hitch in the programme. At the first stroke of the clock down went the first glass; at the second down went another and so until the whole feat was accomplished and the bet was won and as the last intonation of the big bell went ringing and re-echoing from mountain side to riverside the much envied man went wending his way to his room his vast stores of learning afloat in his head. The sound of the beer going down his gullet was something akin to that you hear when you see a blacksmith throw a red hot horse shoe into a tub of water. That chap was quite a hero that day he made a hog of himself and we got to call him Der Oberst—the colonel for which somebody thought him to be a Kentuckian but he was not a colonel, only a hard nut. He had been in the Franco-Prussian war and was a terror with a sword and through his skill and prowess under short noses of ruling fashion in the College. He was a great bully and feared only for blood, beer and bologna. He finally became such a nuisance, that a big American—a graduate of Yale by the by—made up his mind to thrash the Dutchman and save his own American bacon. First he went to a celebrated teacher of fencing and in a very little while was a complete master of the sword. Just as soon as he became an expert he was ready to meet the Colonel. He did not have long to wait. It came in the flowers—in the glad spring time gentle Annie! A quarrel was brewed as quickly as the beer and

was not all froth. The provocation took place in the Gast House of the Golden Angel in the Haupt Strasse where a lot of German students were drinking and bragging about their native grit and grace for it must not be forgotten that since they whipped the French they have been greatly pulled up. Then it was that the stalwart American mildly suggested that his countrymen had been known to fight. But the Colonel went on to declare that the Yankees were all cowards and received in reply a glass of beer right in his face. He arose and spluttered like a volcano and spit fire and oaths and six pointed words and issued a challenge right then and there for immediate and bloody revenge—rare done and service hot.

He was accommodated and the party hastened to the Hirsch Gasse where a terrible fight took place ending in the complete discomfiture of the German and the nicest sitting up of his nose you ever saw in your life. After that there was a silence fell with the awestruck bird and a hush as the rising moon was to the talk about the boys from this side being afraid of any man on earth. That was before our little fuss with Spain. How I would like to drop in on some of those fellows at the Gast House of the Golden Angel in Haupt Strasse and ask them what they think of our American navy. Before closing these hurried and desultory sentences on my recollections of Heidelberg permit me to say that Der Oberst was a very clever and generous gentleman if you struck him when the sign was in the right place that is when he was full, for right then he had the sweet sense that passeth understanding. Right then you could borrow all the money he had even if he had never seen you before or would fail to recognize you on the street when he became sober. The very first time I met him he told me confidently that he was engaged to five rich girls—that it was more of a job that he could stand and that he would like me to take part of them up at his hands. The night we made him Captain of the Kneipe he made a fine speech in which he compared himself to Alexander the Great when he sat down and wept because he had no more worlds to conquer!

Causes Dealers To Notify Growers To Stop Deliveries.

Williamstown, Ky., February 10.—Messrs. Their entire purchase averaged about 16 cents per pound and has been bringing them about 11 cents, less the cost of shipping and selling, or averaging a loss of about 4 cents on the pound. They have received about half of their purchase. Burton is Grant county's member of the Kentucky General Assembly.

Frankfort, Ky., February 10.—The following proclamation was issued by the Kentucky Health Board:

"To the health and fiscal officials and people of Kentucky:

"Disregard of the repeated warning of this board in regard to danger of a widespread epidemic of smallpox this winter is indicated by its existence in one-third of the counties of the State. The disease, repeatedly stamped out in many counties, has been re-introduced in the eastern section of the State through continued disregard and violation of the law and of the rules of one board requiring that no unvaccinated person shall be employed on the part of railroad construction companies and other large employers of unskilled labor. Prompt prosecution by counties will cause the enforcement of this rule and will save the counties of the State thousands of dollars."

Memphis, Tenn., Feb. 10.—Hunter Raine, president of the Mercantile Bank, which closed its doors yesterday after the discovery of alleged defalcations reaching over a million dollars, spent a quiet night in jail last night. According to jail attaches he slept well and today prepared to settle into the routine of jail life.

While first announcements placed the amount of Raine's shortage at about \$500,000, figures given out today show that this already has been increased to nearly \$1,000,000. It is stated by bank officials that the defalcation may reach close to \$1,500,000. Definite figures will not be known until the State Bank Examiners, working under J. L. Clinton, Superintendent of Banks, have completed their work.

Since pleading guilty to the charge of embezzlement and going to jail, Raine has steadfastly declined to discuss the affairs of the bank.

Farmers

Have you ever tried our way of borrowing money to pay for a farm?

You, of course, know that most farms are sold for one-third cash and the balance of the payment is represented by lien notes due in one and two years. You also know that there are times when it is impossible to pay these notes when they become due.

Our specialty is lending money on good farms for LONG PERIODS. Wouldn't you rather have five years to pay the balance than two years?

Any one expecting to buy farm this March will do well to come in and consult us about getting the money.

We have been giving satisfactory service for 24 years.

ELECTRIC SIGNS!

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.

It is the Sign of the Times.
